I don't feel that I know enough or am good enough to give workshops. Would this be a good program for me?

First of all, you are enough, and you know enough. This is a common concern and as Health Coaches, we know we are the only ones who can create our own experiences, and they all start with our thoughts. When we change our thoughts, we can change the direction of our life and business. In this program, we cleanse the negative thoughts (toxins) out of your mind, add in positive affirmations and focus on gratitude every day, multiple times a day. Workshops Done has a section about Mindset in EVERY module. Many Health Coaches add the Mindset shift coursework to their own Health Coaching practice as well.

How long do I get access to download the materials?

How does forever sound? You have access to download the materials as soon as you sign up and have lifetime access to the workshops, marketing materials, lectures, and worksheets.

About how long are the workshop presentations?

Wellness Workshops range from 50-90 minutes, but most are about 60 minutes. These workshops have a lot of content, and each workshop could be separated into three 60-minute, in-depth workshops.

FAQ for Workshops Done

I am nervous about contacting venues and companies to present Wellness Workshops. I don't know what I would say or what I would email them? Would this program work, since I don't think I could actually do this.

That is a common concern and not to worry; we will "hold your hand" during this step. Together, we can do it! In the Module 1, we brainstorm a list of companies and venues to contact. In Module 2, we practice a phone script while also creating a beautiful E-Brochure for Wellness Workshops. Once you make the calls and send emails, you will feel confident and comfortable (and you will expand your comfort zone by being uncomfortable for now).

I am an introvert and feel like I am not a strong speaker. I have helped people & do enjoy sharing their success stories with others to give them hope. Is this a good fit for me?

Yes, and you are an excellent speaker and your future clients are waiting for you! Speaking is not about being a strong speaker, but more about the relationship with the audience. People are hungry to be inspired by new ideas for healthy living. They want ideas that move their heart - that is emotional, inspirational and also memorable. Stories are a powerful way to get a message across and to connect with your audience. I discuss how to bring your authentic self to your audience.

Tell a story in every workshop. When you're telling the story, you are connecting with your audience. Different parts of the brain are lighting up as they hear the story and you're persuading them that this is something they can accomplish as well.

I am not very "techy," how hard is it to update the materials? What program are they in?

All materials are in Microsoft Word or Microsoft PowerPoint. There are links to files to update/edit in Google Sheets and Canva, as well. Those are both optional to use for organization and promotion. All of the documents with Workshops Done can be used as a template and updated with your own logo and re-branded with your name. Step-by-step videos are included as to how to update all files within Workshops Done.

Do I need a degree or certification to be a Wellness Educator?

Great question! You don't need any special certification to be a wellness instructor, although degrees or accolades certainly don't hurt your credibility. Most health professionals that take the Workshops Done program have a certification in Health Coaching.

Do I have access to the whole program immediately?

Yes, as soon as you sign up, you will get a welcome email with all of the details to access ALL of the materials immediately.
